SPORT

BUILDING CANADA FUND - COMMUNITIES COMPONENT

OBJECTIVES

To construct or materially rehabilitate sport infrastructure (organized, competitive amateur activities) that results in at least one of the following:

- Provides increased opportunities for sport activities that can improve the health of Canadians and strengthen Canadian communities; and
- Provides increased opportunities for the development of Canadian athletes and/or the hosting of major amateur athletic events.

SUBCATEGORIES

- Sport infrastructure for community public use (can include training facilities for high performance amateur athletes).
- Sport infrastructure in support of major amateur athletic events.

PROJECT OUTCOMES

The project must demonstrate how it provides benefits to Canadians in support of at least one of the following outcomes:

- A higher proportion of Canadians from all segments of society participating in sport activities;
- Supports the development of Canadian athletes; and
- Designed to attract hosting opportunities for regional, national or international sporting events.

PROGRAM CRITERIA

Through your application, you must demonstrate the following:

- The project is supported by a comprehensive, credible and feasible business case that outlines the costs and benefits of the proposed project. *(Please note that the application form will set out information requirements regarding project costing, ongoing operation and maintenance, engineering, technology, project management and governance)*
- How the project is consistent with applicable provincial, regional, or municipal plans (e.g., land-use, integrated watershed management plan, municipal official plans, Integrated Community Sustainability Plans).
- That the project will meet all applicable legislative or regulatory requirements, including the requirement for a federal Environmental Assessment process that meets the requirements of the *Canadian Environmental Assessment Act*, which may include specific requirements for aboriginal consultation.

- That the contract award process will be competitive, fair and transparent (e.g., no sole-source contracts, no union-only processes).
- That major risks related to extreme natural events and/or climate change risks with a potential impact on the project during construction or once completed have been considered, and, where applicable, a mitigation plan developed.
- That infrastructure intended for use by the public ensures appropriate access for persons with disabilities.
- That opportunities regarding a regional service area or other cooperative arrangements, particularly with First Nations communities, have been considered, as appropriate, in respect of the project.

PROJECT CRITERIA

- The proponent must demonstrate that the primary rationale for undertaking the project is to support organized, competitive, amateur athletic activities.
- Project increases public access to, and participation in, the facility and/or sports activities.
- Project provides increased opportunities for the development of current Canadian athletes.
- Will the newly constructed or materially rehabilitated buildings exceed the energy efficiency requirements of the Model National Energy Code for Buildings, or (preferred) will it obtain a LEED certification? (Gold or equivalent standard is recommended)
- Will the newly constructed buildings meet the requirements of the Canadian Standards Association Technical Standard Accessible Design for the Built Environment (CAN/CSA B651-04)?

SUPPORTING DOCUMENTATION

The following are examples of information that must be submitted to help support and strengthen the business case for your project.

- Project Drawings
- Detailed project cost breakdown including quotes or cost estimates
- Confirmation of sources of project funds, i.e., bank statements, approved bank loan documentation, letters of commitment (or copies of cheques) from funding contributors, approved referendum (or a council resolution to hold a referendum to borrow for the project).
- Approvals of land use required prior to construction proceeding, i.e. Agricultural Land Reserve, right of ways, federal and/or provincial assets, etc.
- Land lease agreement, if applicable
- Current 5 year financial plan
- Information on measurable project benefits
- Letters of support, if available
- Short term employment hours during construction & creation of full time permanent jobs (job title), if applicable;

- Details on the incremental impact of funding (e.g.: should BCF-CC funding not forthcoming, would the project be reduced, delayed (months/years) or not proceed.
- Details on how the project will minimize the negative impacts on the environment? Will it reduce ongoing energy consumption and/or water consumption and/or waste compared to the existing infrastructure? Will it encourage recycling? Will it use recognized green materials in the construction or improvement of the infrastructure?
- Details on how the project will reduce the greenhouse gas emissions through best practices and new approaches and/or innovative technologies during the construction and operation of the infrastructure and where applicable, will they be reduced and by how much?
