

**2003 – 2004 Highway Maintenance Contracts
Frequently Asked Questions
Last Update October 15, 2003**

Service Area 06 (Lower Mainland)

Q1. The Ministry has posted an inventory of railway crossings in other Service Area RFP's with a listing as to who is senior. Will the MoT post a list for Service Area 6?

A. The Railroad Crossing Maintenance Responsibilities by Contract Area is now posted on the ministry website.

Q2. SA06 #2 – How are swing bridge operators certified to operate the structure, is this done by MoT staff? When will operational manuals be available?

A. If the swing bridge involves a railway, the operator(s) must be certified by the appropriate railway authority. If there is no railway involved, no certification is required.

Manuals are available for viewing at the Lower Mainland District Office. Manuals will be available in electronic form in the future.
