

**2003 – 2004 Highway Maintenance Contracts
Frequently Asked Questions**

Last Update November 18, 2003

Service Area 10 (Central Kootenay)

- Q1. We are unable to locate information on the existing Nelson and Edgewood maintenance facilities with respect to annual lease rates, current taxes etc. BCBC tell us the information is posted on your site but we are not able to locate it.
- A. **Go to the BCBC web site at <http://www.bcbc.bc.ca> and under Quick Links on the right hand side of that web page click on [Highway RFP Yards](#) and when the map of BC comes up click 10 and the two yards – Nelson and 102 Collis Street in Creston are shown with full details. The current Edgewood yard is on a triple net lease basis with BCB and should be listed on their site shortly as well as Kootenay Pass camp.**
- Q2. What equipment and tools will VSA be making available in their shops for example compressors, hoists, presses?
- A. **Schedule A in each lease lists the Trade Equipment included with that lease. Any items not listed would be subject to negotiations between the successful proponent and VSA.**
