NOTICE: 01/90  
Replaces Notice 12/86

### DESIGNATED FACILITY - ADVERTISING

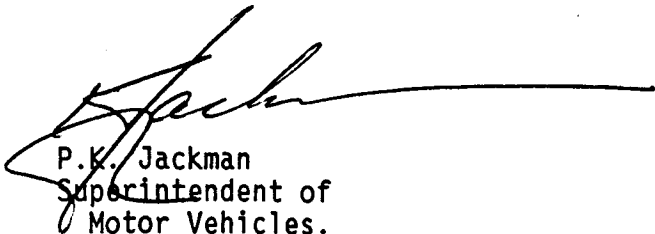

The purpose of this notice is to clarify acceptable advertising practices.

When an application for a designated facility (Inspection Station) has been approved, the facility receives one large Inspection Station decal free. Additional large Inspection Station decals, bearing the station number, may be purchased from the Victoria office of the Vehicle Inspection and Carrier Safety Division. Small Inspection Station decals, which do not bear the station number, are also available from the Motor Licence Office and MVB Appointed Agents. Use Form MV3054 to order these items. These two decals identify the facility as being in the Vehicle Inspection Program, and may be displayed anywhere within the Inspection Facility.

Where the operator wishes to display a larger sign within the Inspection Facility, he may do so providing the graphics on the sign are reproduced exactly like the printing on the Inspection Station decal, EXCEPT that the Provincial logo and the Spirit of BC Flag shall NOT be reproduced.

Where the operator of a designated facility wishes to advertise in written material, e.g. yellow pages, magazines, pamphlets, etc. that he has been approved to conduct inspections under the Vehicle Inspection Programs, he may do so in a statement to that effect, but he must not reproduce a likeness of the Inspection Station decal or the logos that are on it. The advertisement must be written in a manner that does not mislead the public into thinking that the facility is government operated.

Failure to comply will result in action being taken by the Motor Vehicle Branch.

  
P.K. Jackman  
Superintendent of  
Motor Vehicles.
