Notice: 2/2000

To All Designated Inspection Facilities

Re: Facility Audits

As part of the Commercial Vehicle Inspection Program (CVIP) review, beginning January 4, 2000, facility audits will be conducted on Designated Inspection Facilities in BC. The facilities will be chosen at random, using computer software designed for random selection.

If your facility is being audited, you will be contacted by a representative from ICBC. All aspects concerning CVIP will be included in the audit.

Your cooperation during the audit process is appreciated.

Yours truly,
