

Transportation Network Services Application Package (Ride-Hailing)

What is a transportation network service (TNS)?

Transportation network services are defined in the *Passenger Transportation Act* as follows:

“transportation network services” means either of the following:

- (a) services, other than services excluded by regulation, respecting the connection of drivers of passenger directed vehicles with passengers who hail and pay for the services through the use of an online platform;
- (b) prescribed services;

These are also known as “ride-hailing” services. TNSs connect passengers and drivers solely through an online platform.

Do I need a licence to start a TNS?

Yes. You need a licence to operate a TNS in British Columbia. The type of licence you need is known as a “**special authorization**” licence and specifically you will be applying for a “**transportation network services authorization**”. The type of vehicle you need authority to operate is a “**passenger directed vehicle**”.

I. TNS Application Process

Please note: The Passenger Transportation Board (Board) and the Registrar of Passenger Transportation (Registrar) are separate entities with distinct responsibilities under the *Passenger Transportation Act*.

Branch Process:

Through the Passenger Transportation Branch's (Branch) office, the Registrar accepts all applications (including those which require Board approval) and ensures that the applications are complete.

- You pay one application fee of \$200 when submitting to this office. If the application is approved, you must pay a \$5,000 licence fee at the time of licensing and an additional per-trip fee of \$0.30 for trips taken in non-accessible passenger directed vehicles operated under your transportation network services authorization.
- The Registrar verifies safety requirements and issues all licences. The Registrar is also responsible for initiating compliance and enforcement actions against both licensed and unlicensed operators.
- The Passenger Transportation Branch (Branch) screens submitted applications prior to forwarding them to the Board in Victoria.
- If an incomplete application is received, the Branch will contact the applicant and request that missing information be provided within a specified time frame. If the due date is missed, the application fee will not be processed, and the application will not be forwarded to the Board for a decision. You will need to resubmit a complete package.

The filing of an application does not confer any permission or authority to operate a passenger transportation service.

Send your application to the Passenger Transportation Branch in Coquitlam.

Board Process:

The Board is an independent tribunal in British Columbia established under the *Passenger Transportation Act*. The Board's primary responsibility is to make decisions on applications relating to the licensing of passenger directed vehicles (e.g. taxis, limousines, shuttle vans, transportation network services) and inter-city buses in British Columbia. The Board also sets the terms and conditions that will apply to your TNS Authorization.

Publication & Submissions

- Using information in your application, Board staff email you a draft *Application Summary* with terms and conditions for providing the transportation network services you propose.
- After you confirm that the Application Summary is correct, we publish it in our *Bulletin* typically on Wednesdays near the end of the business day.
- Within 10 days of its publication, anyone may send the Board a written submission with the required \$50 submission fee. More information on submissions is provided on our [submissions webpage](#) and [submissions reference sheet](#).
- Local governments and First Nations governments may also comment on an application; however, a submission fee is not required.
- You will receive a copy of all submissions and comments, and you will have 7 days to send a reply to the Board.
- Submitters are able to review applicant responses to original submissions as well as the application package itself, and to provide their comments to the Board. Details are provided in an [Industry Advisory of October 30, 2019](#).

Information & Evidence

- The information in your application is the first source of information for the Board. The Board may refer to submissions, information and evidence from the recommendations of the two reports from the Select Standing Committee on Crown Corporations, expert reports and other publicly available reports or information identified by the Board. These report sources are listed in the TNS Information Sheet near the end of this package.

Decisions

- Application decisions are made by Board members.
- Decisions are based on information and evidence received through the application process as well as evidence as set out above.
- The Board makes its decision on an application after considering whether:
 - you are a [fit and proper person and capable](#) of providing the TNS,
 - there is a public need for the TNS applied for, and
 - the application, if granted, would promote sound economic conditions in the passenger transportation business.
- If the Board approves an application it will set terms and conditions for the TNS

authorization, including approved regional operating areas, and will set the minimum rate for TNSs as the highest flag rate in that region.

- Decisions are emailed to the applicant and Branch, then published in the *Bulletin*.

II. TNS Licensing Basics

Licensing Requirements

Under the *Passenger Transportation Act*, an operator must have a licence with a Special Authorization approved by the Board to provide transportation network services that connect drivers and passengers in British Columbia.

- The Registrar must be satisfied that the applicant will ensure that a vehicle meets safety requirements before it can be operated as a commercial passenger vehicle.
- Applicants and their drivers are advised to delay the purchase, lease or rental of vehicles until approval is obtained.
- Applicants and their drivers are responsible for understanding their legal obligations under provincial and federal regulations for commercial passenger vehicles (e.g. *Passenger Transportation Act*, *Passenger Transportation Regulation* and *Motor Vehicle Act Regulation*).

Also see the Commercial Vehicle Safety & Importation - Information Sheet, Passenger Transportation Branch site and the Board Operational Policy: Introduction of Transportation Network Services, 2019 on the Board website regarding TNS policies on operating areas, fleet sizes, minimum rates and data reporting.

- If your application is approved in whole or in part by the Board, and the Registrar is satisfied that the applicant meets the requirements set out in s. 29(1) of the *Passenger Transportation Act*, the Registrar will issue a passenger transportation licence with a “Special Authorization: Transportation Network Services Authorization” and the service you provide must comply with the Board’s terms and conditions of this licence. The Registrar must issue a licence before your service can start.
- Your licence is valid for one year from the date of issue unless otherwise specified by the Board. Renewals are under the authority of the Registrar and applicants must apply on an annual basis.
- Any changes to the legal name (sole proprietor, partners or company CEO & local GM), business address for mail or the physical location of records, or signing authorities must be sent to the Branch with forms available on the Branch forms webpage.

V. Information the Board Reviews

When Board members decide on an application, they review the following information and evidence:

- Information in your application package and information you provide in response to a Board request
- Written submissions or comments received from others on your application, and your replies to these submissions and any Board requests for more information
- Information that is available to the public (e.g. on a website)
- Any investigation reports from the Registrar and any comments received from you
- Information available through the provincial court registry, [Court Services Online](#) to check the names and information on the Disclosure of Bankruptcy and Unlawful Activity form against provincial traffic and criminal court records.

VI. Board Considerations & Policies

In making a determination on an application, the Board must consider whether there is public need for the proposed service, whether the applicant is a fit and proper person to provide the service and capable of providing the service, and whether approving the application would promote sound economic conditions in the passenger transportation business.

Applicant Fitness

The Board considers applicant fitness matters in two parts:

- (i) Are you a “fit and proper person” to provide the proposed service?
- (ii) Are you capable of providing that service?

Reference Sheet 19 provides detailed information about the factors and information the Board considers regarding the above questions. The reference sheet informs applicants of obligations and requirements they are assessed on and with which operators must comply after a Special Authorization licence has been approved and issued.

Public Need

For the purposes of this TNS application process, the Board may consider information and evidence from recent reports and public consultations. These sources are listed in the TNS Information Sheet. As well applicants may submit additional information that supports your application for a TNS.

Sound Economic Conditions

The Board strives to balance public need for available, accessible and reliable commercial passenger transportation services with overall industry viability and competitiveness. The Board considers the issue of sound economic conditions issue from a wide-ranging perspective which includes consideration of harm to other industry participants such as taxi companies. It is the Board’s view that, generally speaking, the economic interests of the passenger transportation business overall weigh more heavily than the economic and financial interests of any particular applicant or submitter.

VII. Confidentiality

The Board keeps the following types of information confidential:

- private financial information (e.g. personal net worth statements)
- private business details (e.g. contracts, customer account information, detailed expansion processes)
- information from criminal record checks and other personal information (e.g. Declaration Form)

Other information submitted with an application may be made public. Board decisions are public. The *Freedom of Information and Protection of Privacy Act* may apply to information in your application package.

VIII. Other Information Available to the Board

The Board also has Operational Policies and Rules of Practice and Procedure. These are posted on the Board's website. A policy or rule may apply to your application.

IX. Reconsiderations

There is no right to appeal Board decisions. The Board may reconsider, vary or rescind a decision in only two circumstances:

- (a) information has become available that was not available at the time the decision was made, or
- (b) there has been an error in procedure.
