Acknowledgements

The first issue of this manual (2004) was produced with the guidance of an Inter-Agency Steering Committee comprised of personnel from the BC Ministry of Transportation and Infrastructure (MoT), and the BC Ministry of Environment (formerly BC Ministry of Water, Land and Air Protection). Input at that time was provided by a large cross section of staff from both ministries, as well as representatives from Fisheries and Oceans Canada and MoT's Road and Bridge Maintenance Contractors.

This version of the document reflects the most recent feedback from both staff and contractors, and incorporates the latest environmental best practices information available for highway operations activities. It is the intention to keep this manual current through continuous updating and improvement.

The contribution of all those involved is acknowledged and sincerely appreciated.

Table of Contents

Acknowledgements	i
Table of Contents	iii
1 Introduction and Scope	1
2 How to Use This Document	6
3 Key Environmental Concerns	7
4 Legal Requirements and Performance Standards	11
4.1 What Legal Requirements Apply to My Works?	11
4.2 What is a Performance Standard?	14
5 Environmental Best Practices for Maintenance Activities	15
5.1 Highway Surface Management	16
5.2 Gravel Surface Management	21
5.3 Dust Management	26
5.4 Debris Removal	31
5.5 Ditch and Watercourse Management	36
5.6 Drainage Appliance Management	43
5.7 Shore, Bank, and Watercourse Management	51
5.8 Engineered Wetland and Water Quality Pond Management	59
5.9 Winter Road Management	65
5.10 Roadside Vegetation Management	70
5.11 Rest Area and Roadside Facilities Management	76
5.12 Roadside Fence Maintenance	83
5.13 Bridge Structure Management	88
5.14 Retaining Structure Management	96
5.15 Multiplate Structure Maintenance	101
5.16 Highway Incident and Vandalism Response	107
5.17 Gravel Pit Operations	110
6 Supplementary Best Practices for General Operations	115
6.1 Erosion and Sediment Control	116
6.2 Invasive Plant Management	122
6.3 Use of Potentially Harmful Substances	127
7 Interagency Communications	132
8 Regulatory Agency and Other Contacts	134
South Coast Region Maintenance Contractors	141
Southern Interior Region Maintenance Contractors	141
Northern Region Maintenance Contractors	142
9 Glossary	144
10 Literature Cited	149
