

Do I need a licence to start a taxi service?

Yes. You need a passenger transportation licence to operate a taxi service in British Columbia. The type of licence you need is a **Special Authorization: Passenger Directed Vehicle Authorization**. The type of vehicle you will operate is a **passenger directed vehicle**.

The Passenger Transportation Board makes decisions on applications for special authorization licences.

I. About Taxi Services

Although “Taxis” are not defined in the *Passenger Transportation Act*, the Passenger Transportation Board generally considers a passenger transportation service a taxi if a licence allows the:

- pick up of passengers who hail or flag the vehicle from the street;
- use of a top light;
- use of a taxi meter; and
- use of a vehicle that can carry a driver and no more than 7 passengers.

Taxis cannot use a transportation network service to connect with passengers.

Applicants are advised to delay the purchase, lease or rental of vehicles until approval is obtained.

II. Exclusions from PDVA Requirements and Exemptions from Licensing

Section 3(3) of the Passenger Transportation Act specifies vehicles that are excluded from the definition of passenger directed vehicles. These include: some patient transfer vehicles; vehicles that are part of tour packages, arranged by a licensed travel agent, that include at least one night’s accommodation; and vehicles travelling from outside British Columbia that do not pick up or drop off passengers in BC.

Section 5 of the Passenger Transportation Act lists exemptions from the Act and regulations. In these cases, no application or licence is required to operate.

III. Application Process

The Passenger Transportation Board (Board) and the Registrar of Passenger Transportation (Registrar) are separate entities with distinct responsibilities under the *Passenger Transportation Act*. The roles of each in the application process are explained below.

1. Branch Receipt of Application

Through the Passenger Transportation Branch (Branch) office, the Registrar accepts all applications (including those which require Board approval) and ensures that the applications are complete.

- You pay a fee of \$200 when submitting an application to the Branch office. If the application is approved, you must pay \$100 per vehicle that you activate. The Branch will advise you of payment processes.
- The Registrar verifies safety requirements and issues all licences. The Registrar is also responsible for initiating compliance and enforcement actions against both licensed and

unlicensed operators.

- The Branch screens submitted applications prior to forwarding them to the Board in Victoria.
- If an incomplete application is received, the Branch will contact the applicant and request that missing information be provided within a specified time frame. If the due date is missed, the application fee will not be processed, and the application will not be forwarded to the Board for a decision. You will need to resubmit a complete package.

The filing of an application does not confer any permission or authority to operate a passenger transportation service.

2. Board Decision-Making Process

The Board is an independent tribunal in British Columbia established under the *Passenger Transportation Act*. The Board's primary responsibility is to make decisions on applications relating to the licensing of passenger directed vehicles (e.g. taxis, limousines, shuttle vans, transportation network services) and inter-city buses in British Columbia. The Board also sets the terms and conditions of licence that will apply to your operations.

Publication & Submissions

Using information in your application, Board staff draft and email you an Application Summary that includes proposed terms and conditions for providing the transportation services you seek.

After you confirm that the Application Summary is correct, we publish it in the Board's *Bulletin*, typically on Wednesdays at the end of the business day. However, the *Bulletin* also may be published on days other than Wednesday.

Within 10 days of its publication, anyone may send the Board a written submission with the required \$50 submission fee. Local governments and First Nation governments may also comment on an application; however, a submission fee is not required.

You will receive a copy of all submissions and comments, and you will have 7 days to send a reply to the Board.

Further information on submissions can be found on the [“Making a Submission” webpage](#) and in [Reference Sheet 8](#).

After the submission and reply period ends, the Chair of the Board appoints a panel of one or more Board members to review and decide the application.

Information & Evidence

Board members make decisions based on information and evidence that they receive during the application process. This information may include:

- information you submit with your application;
- written submissions from other people;
- your replies to the submissions;
- follow-up information that the Board gets from you, submitters or another person¹;
- information from you, the Branch, Board or Government that is available to the public (e.g. information on your website, information the Board website, etc.);
- information the Board receives from first nation councils/nations or local governments;
- compliance information received from the Registrar of Passenger Transportation;
- investigation reports from the Registrar of Passenger Transportation and any comments received from you;
- information from a public hearing; and
- when it is available, data collected from taxis, transportation network services; and limousines and passenger directed vehicle operators in an area.

Decisions

Application decisions are made by Board members. Staff do not make decisions on applications.

The Board makes its decision according to its mandate as set out in section 28(1) of the [Passenger Transportation Act](#), as outlined below in section I.3. The Board decides each case on its own merits. However, the Board also seeks to have consistency in its decisions.

To approve an application, the Board must also be satisfied that applicants have shown that the as licensees they would meet the requirements of the Passenger Transportation Act and regulations, including those relating to drivers and vehicles.

If the Board approves an application it will set terms and conditions for your Special Authorization: Passenger Directed Vehicle Authorization licence, including approved operating areas and fleet size, and will set or approve rates.

¹ You will be able to see information from submitters or another person, unless it is confidential business information. If it is confidential business information, you will receive a summary of the information as set out in [Board Rule 18](#) (“Confidential Information from a Submitter”).

Decisions are emailed to applicants and the Branch, then published in the *Bulletin*.

3. Board Considerations

When making a decision on your application, the Board must consider the three factors set out in section 28(1) of the *Passenger Transportation Act*. These are set out below.

- ***Applicant Fitness***

The Board considers applicant fitness matters in two parts:

- (i) Are you a “fit and proper person” to provide the proposed service?
- (ii) Are you capable of providing that service?

Reference Sheet 19 provides detailed information about the factors and information the Board considers regarding the above questions. The reference sheet informs applicants of obligations and requirements they are assessed on and with which operators must comply after a Special Authorization licence has been approved and issued.

- ***Public Need***

The Board must consider whether there is a public need for the service that you propose to provide. This requires you to demonstrate that there are people who would use your service. The Board expects you to prove there is public need throughout the area you have applied for and your reasons for asking for a specific number of vehicles.

Reference Sheet 20 provides more information on the type of factual information applicants can provide to demonstrate public need as well as factors that the Board may consider when considering sound economic conditions.

- ***Sound Economic Conditions***

The Board must consider whether your application, if approved, would promote sound economic conditions in the passenger transportation business in this province. The Board strives to balance public need for available, accessible and reliable commercial passenger transportation services with overall industry viability and competitiveness. The Board considers this issue from a wide-ranging perspective, which includes consideration of harm to other industry participants.

4. Licences Issued by the Branch

If your application is approved in whole or in part by the Board, and the Registrar is satisfied that the applicant meets the requirements set out in s. 29(1) of the *Passenger Transportation Act*, the Registrar will issue a passenger transportation licence with a “Special Authorization: Passenger Directed Vehicles Authorization”. The service you provide must comply with the

Board’s terms and conditions of this licence. The Registrar must issue a licence **before** your service can start. Your licence is valid for one year from the date of issue unless otherwise specified by the Board. Renewals are under the authority of the Registrar and licensees must apply to renew their licence every year.

Any changes to legal name, sole proprietor, partners or company CEO & local GM , business mailing address/physical location of records, or signing authorities require submission of forms available on the [Branch forms webpage](#) and must be submitted to the Branch.

As a term or condition of licence, you will be obligated to provide the Registrar any information and data that the Board or the Registrar may request. Information on the current data requirements and submission process are specified in the Trip Data Submissions Guide and Specifications document [available on the Passenger Transportation Branch website](#). At a minimum, weekly data submissions are required. Completed submissions are due within five business days of the end of the period that the data covers.

IV. Checklist for Applications

This section lists information you need to know before you apply for a passenger transportation licence. It also lists the forms and documents that you must provide with your application. V. More Information About Required Attachments

This section provides more detailed information on “Application Attachments” that are listed in the checklist in the previous section.

Attached Document	Requirements
Business Plan	Business plans give the Board a clear, detailed picture of your operation. You need to provide enough information to the Board to enable it to review and understand how you will set up and run your business. Your business plan should show that you understand the passenger transportation business, including the requirements of the <i>Passenger Transportation Act</i> , its regulations and Board policies. See Board Reference Sheets on Business Plans and Sample Business Plan Outlines .
Cash Flow Projections	Provide month-by-month cash flow projections for 36 months . Break projections down to the main expense and revenue categories for your operation. See Reference Sheet 4: Financial Information for more information.
Balance Sheets or Personal Net Worth Statements	If you are a company, submit a balance sheet. If you are sole proprietor or partnership, submit a personal net worth statement. See Reference Sheet 4: Financial Information for more information.
Income Statements	If you operate a passenger transportation business, you must submit income statements for the past 2 years . If you have not operated for 2 years, then submit income statements that include the months you have operated. See Reference Sheet 4: Financial Information for more information.
Resumés	Resumés are required from sole proprietors, each partner in a partnership involved in management, and for a corporation, the President and the General Manager (head) of the Canadian or BC operations. You should include information that shows you have the knowledge, skills and abilities to operate the service for which you are applying. Resumés outline education, work experience and skills. You do not need to have run a passenger transportation service before. The Board wants to know that you have skills that you can apply to running the service. You may have gained these skills through your education, experience or work history.

<p>Criminal Record Checks</p>	<p>Criminal record checks must be provided for sole proprietors, each partner in a partnership involved in management, and for a corporation, the CEO and GM (head) of the Canadian or BC operations.</p> <p>NOTE: Individuals who are not residents of Canada must provide either (a) a Police Certificate from their country of residence confirming that a criminal record does not exist; or (b) a copy of the criminal record. Information about obtaining criminal record information from other countries is available on the Government of Canada website.</p>
<p>Public Need Indicators</p>	<p>A “public need indicator” is factual information that shows there is a public need your proposed transportation service in the area you want to serve. The Board wants you to analyze the information you put in your application to show public need. How does this information show public need for: (a) more of the service that you are applying for, and (b) the number of vehicles you are asking for?</p> <p>Reference Sheet 20 provides more information on public need indicators.</p>
<p>Accessible Service Plan</p>	<p>All applicants should include information on accessible services in their communities in their application. If you are applying for wheelchair accessible taxis, you must include an Accessible Service Plan. Refer to Reference Sheet 7 for information on what to include in a plan.</p> <p>A full accessible service plan is not required for taxi operators in communities of under 15,000 people.</p>
<p>Proposed Rates</p>	<p>Metered Rates are what you charge passengers for a trip. In British Columbia most taxi rates are calculated on a meter that may be calibrated and tested. Taxi meter rates are based on the flag drop rate, the distance rate and the time rate. The flag rate is the rate at the start of the trip – it appears when the meter is turned on. The distance rate is a per kilometer rate. The time rate is estimated in seconds or minutes. If a taxi speed falls below a “crossover” rate, then the meter applies the time rate rather than the distance rate. To submit the metered rates you charge, you may use the Metered Taxi Rates form. The Board allows companies to use taxi soft meters to calculate metered rates. These are software apps loaded on smartphones or tablets to be used as a taximeter. Taxi soft meters must meet the requirements set out in the Board’s BC Taxi Soft Meter Rule.</p> <p>Other Taxi Rates: Some taxi companies have point-to-point rates, or a combination of meter rates and point-to-point rates. A few companies have charge individual fares. These taxi companies usually operate in smaller communities. To submit these types of rates, you may use the Board forms for Point-to-Point Rates or Individual Fares.</p> <p>Common Rates In some cities, taxi companies have common rates (e.g. Metro Vancouver). If you are applying to operate a taxi in an area with</p>

	<p>common rates, then your rates would be the same as the common rates. The Board has posted common rates on its taxi rates webpage.</p> <p>Rules The Board has set standard rules for taxi rates that apply to licensees providing a taxi service.</p> <p>Crew Transport & Contract Rates If you are applying to provide crew transport service and meet the requirements of Rule 49 of the Board's Rules of Practice and Procedure, then you are not required to submit these contract rates for Board approval. All other rates require Board approval.</p>

VI. Other Information Available to Applicants

The Board's [website](#) has additional information available to applicants. This includes information on legislation and Board policies and rules, applications and reference sheets, rates, industry specific matters and rates.

VII. Confidentiality

The Board keeps the following types of information confidential:

- private financial information (e.g. personal net worth statements);
- private business details (e.g. contracts, customer account information, detailed expansion processes); and
- information from criminal record checks that is not public and other personal information (e.g. "Disclosure of Unlawful Activity and Bankruptcy" form)

Other information submitted with an application may be made public. Board decisions are public. The *Freedom of Information and Protection of Privacy Act* may apply to information in your application package

VIII. Reconsiderations

There is no right to appeal Board decisions. The Board may reconsider, vary or rescind a decision in only two circumstances:

- a. information has become available that was not available at the time the decision was made; or
- b. there has been an error in procedure.

For further information, see [Reference Sheet 14: Options after a Decision](#).
