(i.e. LT-AB: Lynnterm to Alberta)

LT-AB**PC13-A1****H479****HEIGHT**

Maximum height on this
route (H479 = 4.79m)

Power Unit Details:

Make: _____

Model: _____

Year: _____

Colour: _____

Project Cargo Route & Configuration Code*:

Plate Number: _____

Registration Number: _____

Description of the Load Being Hauled (i.e. Gasifier Module)

Commodity**: _____ Number of Loads: _____

* If your request is for multiple vehicle configurations, please use a separate application for each configuration. Note that all spacings must be within the ranges shown on the appropriate permit condition document for your vehicle configuration.

** If your request is for multiple commodities, please list them all (including the number of loads for each) and provide overall load dimensions for each commodity on your drawing.

Overall Dimensions:	Loaded:	OAW: _____	OAH: _____	OAL: _____
	Empty***:	OAW: _____	OAH: _____	OAL: _____

Schematic Drawing of Loaded Vehicle (attach a separate page, please)

- Your drawing should include all **axle spacings, axle weights, tire sizes, truck/tractor width, trailer width, and wheelbases for each vehicle in metric measurements only.**

Empty Trip*:** Do you also need special approval to move the empty vehicle(s) coming to or from the load, on the identical route in reverse? _____ Yes _____ No

Where possible, size must be reduced for empty travel.

If you do not plan to use the identical route, but will still need an empty approval, please apply for your empty approval using the standard approval request processes.
(For the province, Form CVSE1049; for the municipalities, contact each directly).

Proposed Date(s) of Travel: _____

Note: This approval form should be emailed to all jurisdictions on your route at the same time. The contact information for authorities on your exact route may be found on the last page of the permit conditions document for your Project Cargo Route & Configuration Code. Once you receive approvals from each authority, see that same page for permit purchase information.
