

COVER SHEET – ACTIVATE SINGLE SHIFT PAIRED VEHICLES

Single Shift Paired Vehicles (SSPVs) are two vehicles paired together for the purpose of operating separate shifts (e.g., day and night) rather than one vehicle covering two shifts. SSPVs may not be on the road at the same time unless a driver is completing a trip that started before the end of a specified shift. A conventional taxi must only be paired with another conventional taxi, and an accessible taxi must only be paired with another accessible taxi. Licensees must be up to date with their trip data submission requirements in order to operate SSPVs.

Licensees must keep a written or digital record of (a) The two vehicles that are paired, and (b) The start time and end time of both SSPVs.

SSPVs are required to meet the Registrar's requirements for vehicle identification which are located at [this link](#).

Personal information is collected by the Ministry of Transportation and Transit – Commercial Vehicle Safety and Enforcement Commercial Passenger Vehicle Program under section 26(c) of the Freedom of Information and Protection of Privacy Act (FOIPPA) for administering and enforcing the Passenger Transportation Act and Passenger Transportation Regulation. Should you have any questions about the collection of this personal information please contact: Registrar, Passenger Transportation using the contact information provided at the bottom of page 3 of this form.

Licensee Name:

PT Number:

Choose ONE of the following. I am a licensee seeking to:

pair two vehicles (if so, fill out this table below), OR
pair multiple sets of vehicles (if so, see next page)

Check off the option that applies to your request, fulfill the requirements listed, and submit this Cover Sheet along with relevant documentation.

Are you seeking to pair two wheelchair accessible vehicles? YES NO

If Yes, please submit proof that the accessible vehicle meets all applicable requirements of the *British Columbia Motor Vehicle Act* Regulations Division 10, and Division 44 – Mobility Aid Accessible Taxi Standards, and noted CSA Standard D 409 and CSA Standard Z605. (e.g. Compliance label/declaration by an approved Transport Canada Secondary Manufacturer.)

Request (pick one)
